

VITAR[®]

UL CERTIFIED VITAR FINNED HEATER SERIES (E494535 Vol. 1)

- In various design configurations – Straight, U-shape and W-shape
- Power rating up to maximum 480 V ; 6500 W
- Heater power density at maximum 44 W/in²
- HVAC airflow recommended at minimum 1 mtr per second
- Construction comply to IEC Low Voltage Directive 2014/35/EU
- Other quality marks certification - CE, ROHS
- Custom-made design with UL compliance is available

APPLICATIONS

- Building ventilation and ducting systems
- Automotive painting drying process
- Food processing industry
- Textile processing industry
- Power loadbanks
- Many other applicable industries
